

Orango National Park

One of the most important parks in Guinea-Bissau, located in the Bijagós archipelago.

It is known for its **unique biodiversity** and for being a **refuge for numerous species** of flora and fauna.

It combines forests, mangroves, savannah areas and pristine beaches.

Saltwater hippos

Unique species

The **only place** in the world where saltwater hippos live.

Extraordinary habitat

Adapted to a unique environment between mangroves and the ocean.

Sighting

They can be seen in lagoons, mangroves and even on beaches.

Bijagó culture

1 — Legacy of Okimpa Pampa

Visionary queen who fought for the rights of the Bijagós and women.

2 — Tabanka of Eticoba

Place where visitors can get closer to Bijagó traditions.

3 — Ancestral knowledge

Preserved by healers and the community's council of elders.
